IFS & JIC User Group

The IFS (Integrated Financial Services) User Group represents the 77 counties using IFS. IFS is owned and managed by the 77 counties through JIC (Joint IFS Committee), which is an advisory committee with representatives from the user group. JIC meets on the second Friday of every other month.

Committees

- IFS Roadmap
- Best Practices & Enhancements
- Training
- IT Advisory Panel
- IFS Cash Drawer

What Can IFS Do?

- Budgeting
- Voucher & Warrant Processing
- Receipt Processing
- Reports & Inquiries
- 1099's

About Trimin

Trimin is the contracted vendor for this user group, which provides maintenance, support, development, and training services for IFS. To learn more about Trimin, visit trimingov.com.

For support, please contact ifssupport@triminsystems.com

IFS At-a-Glance

IFS is currently in the process of a complete review and will undergo some major changes. Here's an inside look of what you can expect:

Phase 1 resolved coding errors and database configurations. The product is now up-to-date with the back end database coding and configurations.

Phase 2 is coming out this spring! This phase will move the application from IBM WebSphere to TomCat. Once complete, the product will be able to encrypt the MS SQL DB, along with securing communications to and from Microsoft AD, and will no longer be dependent on the IBM WebSphere product.

IFS Across Minnesota!

77 counties are using IFS!
