MCAPS

Why MCAPS?

MCAPS - Minnesota County Attorney Practice System - is a leading case management system in Minnesota, created by and for county and city attorneys. Counties, cities, and agencies of all sizes utilize the system to manage cases in and out of the courtroom. The County Attorney User Group, under Minnesota Counties Computer Cooperative (MnCCC), works together to create, implement, and enhance this effective and efficient case management software system through active cooperation of the membership.

Special Features

The new Web Edition of MCAPS is fast, reliable, secure, and ready to keep up with your agency's needs. New editions include enhanced security, e-referrals, reporting, new calendar options, updated user interface, and so much more!

- **Criminal & Civil Functionality**

Adult criminal, juvenile criminal, administrative, bankruptcy, child support, CH/P's, civil actions, collection, commitment, condemnation, dog bite, environmental, forfeiture, guardianship/conservatorship, human services, appeals, land use, outreach, probate, tax appeals, and zoning.

- **Linking & Importing Files**

- **Paperless Processing**

- **Document Preparation**

- **Comprehensive Case Tracking**

- **E-Charging**

- **Fully Integrated with the BCA, State Courts, and Local Law Enforcement**

- **Responsive Reporting**

- **Compliant with Minnesota-Specific Statutes and Local Ordinances**

- **Direct Impact from Users**

- **Processing from Anywhere**

Training

Member-Dedicated Training & Support

The MCAPS Executive and Training Committees work together to provide monthly Brown Bag Lunch Webinars. We'll discuss the status of projects and enhancements, what to expect with new integrations and features, and demos.

Website

Our MCAPS website launched in the summer of 2022 and features information about the County Attorney User Group, our MCAPS vendor, cloud hosting, and MCAPS news and events. Visit www.mcaps-mn.gov today for more information!

About STI

BCA-Certified Strategic Technologies Incorporated (STI) is an innovative software consulting firm located in Maple Grove, MN. With 25+ years in the industry, STI has the experience necessary to guide you through the process of finding a solution that fits your needs. STI knows that you understand your organization best, and their mission is to develop and maintain integrated data systems that support attorneys. For more information, contact helpdesk@sti-software.com or (763) 559-1959, option 1

Interested?

Contact Jill Krahn for a demo today. Learn why the MCAPS web edition is the right fit for your office and how you can utilize its capabilities to leverage your office forward. Simple and transparent contracting, on-demand and one-on-one training access, and user group collaboration are some of the many reasons Minnesota County, City, and Local Attorney offices choose MCAPS!

Get Involved!

44 counties, cities, and agencies across the state are MCAPS users! With that many members, it's important we keep connected regularly! When you're an MCAPS user, you have access to our monthly Executive Committee meetings, annual User Group meetings, monthly webinar training sessions, and so much more! Connect with us on RSVP to stay in the loop and meet fellow MCAPS users.

What are our Users Saying about MCAPS?

“

On the message board, the Court Notifications have been very helpful to me. This is an easy way to review if hearings are rescheduled and assess if witnesses need to be re-noticed. Sometimes, this is the only way I receive any notice that a hearing has been rescheduled. I have come to depend on this feature!

Gretchen Junglas
Clay County

“

Having spent a good portion of my working hours supporting and maintaining PbK, I wish it had lived up to its sales pitch. Web-based MCAPS bridges any gap in performance PbK may have had over desktop-based MCAPS, and MCAPS' intuitive and Minnesota-based software is simply better.

Daniel S. Shub
Benton County

“

Being a legal assistant is all about the details and with a large caseload that includes multiple case types, remembering everything, all of the time, can be challenging. That's why I appreciate the features and functionalities of MCAPS Web Edition. From case alerts which allow me to track timelines in a visible place for all users to see, to court notifications, which alert me when hearings have changed, to note templates which allow me to add checklists directly to the file with ease, MCAPS has the tools make my job easier.

Cheryl Brame
Clay County

“

We continue to find areas in the MCAPS Web Edition that benefit our office and our overall efficiency. STI just released the latest update to MCAPS Web that includes an integration with eFS, filing right from MCAPS, eDiscovery, and OJP Grant Reports. We are excited for the addition of recharging juvenile petitions and the option for cloud hosting. New releases are made available on the STI website and can be downloaded by your IT to your network that will automatically install for each user.
